

Vacancies at The Concrete Society

We know that there are many reasons to get excited about concrete. What we need is someone to take that passion and share it with our members and the industry. We are looking for motivated, multi-talented individual(s) for a genuinely unique opportunity.

Technical Officer

As a Technical officer, with a recognised qualification and practical knowledge of concrete, this is an opportunity to provide technical support to our members and regional network. The work will include co-ordinating technical committees, supporting technical activities and events such as our prestigious Awards. You will be highly self-motivated with the opportunity to develop the role. Communication and writing skills are essential, with a good working knowledge of Microsoft Word, Excel and PowerPoint expected.

This position is based at our Head Office in Blackwater, Surrey.

Experienced Engineer

We are looking for someone with an engineering background; someone who can talk the talk and walk the walk. You will be an experienced Engineer with a relevant qualification at University level, ideally with on-site experience and a good knowledge of concrete and construction. Working within our Technical Services, your primary role will be to provide technical advice to members and non-members, undertake site visits and assist with training programmes. Your role will involve working with industry committees, associations, contractors, consulting engineers and more, developing a network of industry contacts. Crucially, you've got the communication skills to become a trusted advisor able produce reports and deliver training presentations. A good working knowledge of Microsoft Word, Excel and PowerPoint is expected.

This position may be based at home or at our Head Office in Blackwater, Surrey, depending on circumstances.

These posts offer a competitive salary and excellent benefits package.

To apply send your CV to HR@concrete.org.uk or contact the Technical Manager on 01276 607140
Closing Date: 20 February 2018
