Precast Concrete

- 7 Is precast concrete the solution to meeting environmental targets for agriculture? *Richard Moody*

Hospitals, Universities

- 10 Alder Hey Research and Education Facility *Andrew Barnett*

Sea/Flood Defence and Marine Construction

- 14 Protecting a community *Amber Telford*
- 17 Fairhaven to Church Scar coastal defence project *Robin Metcalf and Richard Birchall*

Concrete in the Ground

- 20 UCLH Proton Beam Therapy Centre *Edwin AR Trout*
- 24 Crack control for basement structures *Emily Bonner*
- 26 Err on the side of caution *Paul Green*
- 27 Keeping reinforced concrete basements dry – doing it better using ‘white tank’ construction *Pat Mulligan*

Concrete Miscellany

- 30 Determining water:cement ratio in hardened concrete: an inter-laboratory assessment by the Applied Petrography Group *R Barnes et al*
- 35 Assessment of in-situ compressive strength class using a minimum number of cores *Chris A Clear*
- 37 Luton DART *Andy Casewell*

- 40 Features List/Ad Index/Subscriptions

concrete magazine is produced in-house by The Concrete Society, a not-for-profit, independent membership organisation dedicated to supporting the use of concrete, the most widely used building material in the world.

Established in 1966, and with members from around the world, The Society has built on its technical base to become a leading provider of information, serving the needs of clients, architects, engineers, specifiers, suppliers, contractors and users of concrete.

The May 2020 cover

The Government's Clean Air Strategy will have far-reaching impacts on farm infrastructure and planning over the next decade. *Concrete* presents an overview of the impacts of such policy, considerations for agricultural engineers and designers, together with some positive thoughts on how the choice of precast concrete helps to achieve environmental targets.
